Information shown on this chart is a general depiction of the waterway and adjacent areas only and is not in anyway to be construed as representing precise or accurate dimensions, portrayals, features, or other data. Major changes which occur will be published in "NOTICES TO NAVIGATION INTERESTS."

The general locations of AIDS-TO NAVIGATION are shown, as they existed on the last editing date of this book. They may subsequently have been moved, destroyed or discontinued. They should in no event be used to fix the position of a vessel.

The following applies for Charts 1 through 10:

The source mapping used to develop and portray the information shown on these charts were compiled from aerial photography exposed in 1992 and 1993. The Geographic Coordinates represented were converted from the source mapping Horizontal Grid Data, State Plane Coordinate System, Pennsylvania South Zone, NAD 83 (86) utilizing Conversion software. The grid annotated on these charts are for general reference and not to be used for precise location of features.

The minimum channel depth depicted on these charts was developed from soundings data obtained on June 1992, and June 1996 for charts 1 thru 10.

The following applies for Charts 10 through 21:

The source mapping used to develop and portray the information shown on these charts were compiled from aerial photography exposed in 1999. The Geographic Coordinates represented were converted from the source mapping Horizontal Grid Data, State Plane Coordinate System, Pennsylvania South Zone, NAD 83 (86) utilizing Conversion software. The grid annotated on these charts are for general reference and not to be used for precise location of features.
